Hospital Homebound in Arkansas

Is my child eligible?

Children with chronic illnesses can receive hospital- or home-based instruction through the Hospital Homebound (HHB) program.

To receive HHB educational accommodations, your child must:

- » Be absent from school for a medically diagnosed illness or disability.
- » Have doctor certification that medical, mental, or emotional conditions prevent school attendance.

How much instruction will my child receive?

Generally, your child will receive **three to five hours** of direct instruction per week.

How long can my child receive HHB services?

Schools provide HHB services as long as medically necessary.

What is the HHB application process?

First, submit the request for HHB services to your child's home school with doctor certification. If your child is already in Special Education, submit the request for HHB services to the Director of Special Education.

Then, work with your child and their school to develop and implement an instructional plan. If your child is already in Special Education, an IEP conference will be held.
